10 Eco Sauna Smurf & Sauna Prices

All of our hand-made tubs can be crafted to a size that suits you.
Our prices are generally half the price of an equivalent electric hot tub, not to mention the saving on running costs.

Our most popular tub continues to appeal to both domestic and glamping customers due to super fast heat up times (approx.1hr) and low water volume (850 litres)

Perfect for couples, the Luvtub is a stunning addition to any outdoor garden space or couples Glamping areas creating an amazing "WOW" factor" that users absolutely love.

LUXURIOUS WOOD FIRED SAUNAS

All of our Saunas can be crafted to a size that suits you. We are happy to design your model to your own internal measurements for room layouts etc.

Many of our designs are perfect for an accommodation unit too and seating and beds are easily added should you prefer instead of the sauna layout.

Customers can choose a completely bespoke design layout for the interior as well as choosing aside access door or end access door.

As all of our saunas are hand-crafted and fully built they will be delivered in one piece.

It is therefore the customers responsibility to have the means to unload and situate the sauna once it arrives.
